ANTIFREEZE JACKETS

Avoid damage due to frost & freezing
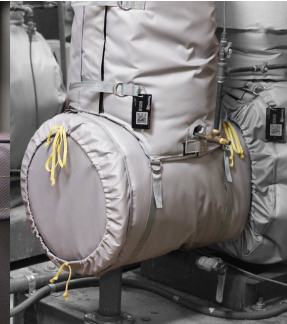

Before

After

» Why You Need Removable Insulation

Hot, naked pipes & components are expensive & waste energy.

- Inspect & maintain components plus easily reinsulate.
- Protect expensive equipment.
- Reduce ambient temperatures & burn hazards.
- Pays for itself in under 2 years.

Don't wait, lower your energy bill _today_!

» Heat Loss Survey

- Thermaxx conducts a full app driven energy audit.
- Accurate heat loss report showing savings for each component.
- Full quote & heat loss provided within 24 hours.
- Patented measurement & verification technology gives confidence on savings projections.

» Why Choose Thermaxx

- We know the rebates at _your_ utility.
- Turn-key implementation saves you time.
- Receive full visibility with our app, Slates, & digital tools.
- Rest assured with a 5-year warranty.
