Make Ready Program

Partner with DVM Industries to build your business by installing electric vehicle charging stations. The utilities' Make-Ready Program offers incentives to help fund the cost of the infrastructure and associated with new electric vehicle charging stations.

DVM Industries is an **approved Make-Ready Program contractor** that can both secure these incentives and install all needed infrastructure, software, and hardware for your EV charging station

When you add electric vehicle charging stations, you are not just providing customers, employees, and tenants with convenience and connectivity, you are demonstrating your sustainability commitment to the entire community.

So, take charge, at little or no-cost, and become an environmental leader. We are ready to get to work for you.

Let's get started!

MAKE READY PROGRAM COMPONENTS

	Utility-Side Infrastructure	Customer-Side Infrastructure	Other Soft Costs
Component Examples	• Distribution Network • Transformers • Meters • Conductors	• Panel • Conductor • Boring • Trenching • Conduit	• Signs • Bollard • Network • Maintenance • Assoc. Fees
Who Pays?	Make Ready Program (Covers up to 50% - 90%) *this is dependent on Con Ed funding and can be subject to change		Customer Responsability
Who Owns?	Utility Company	Customer	

Note: Graphic is for illustrative purposes only, may not be exhaustive and contents are subject to change.

Here is how it works

Initial Planning & Application

Potential program participant reviews program information and schedules a site visit and scoping with DVM Industries. We will submit Program Application on behalf of the participant.

Design & Engineering

Program participant works with DVM industries and Utility on charger selection and site design. We will submit application and utility company reviews details.

Construction

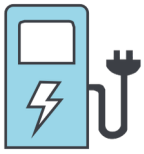
Utility company and DVN Industries build "make-ready" infrastructure to parking space.

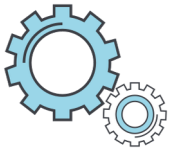
Activation & Payment

Chargers are installed and activated. Customer provides documentation. Utility company provides payment to customer.

Funding for these programs is expected to go quickly so we strongly encourage all interested facilities to participate as soon as possible. For more details about these new incentives or EV charging station installations, contact us at **info@dvmindustries.us or 212-739-7846.**

Our team will provide





Hardware

- Charging Stations
- Electric service upgrades

Installation

- Cabling & conduit
- Permits
- Signage

Incentives

- Incentive paperwork
- Reporting
- Secure payments

Maintenance

- Preventative
- Repairs
- Upgrades
- 24/7 Service

Available Incentives & Eligibility

up to 90%

**this is dependent on Con ED funding and can be subject to change

Publicly available L2 and DCFC projects with standardized plug types located outside of Disadvantaged Communities. Includes munic- ipal pay-to-park and free parking locations.

Publicly available L2 and DCFC projects including proprietary plugs must have an equal number of standardized plugs of an equal or greater charging capacity to the proprietary plugs (outside of Disadvantaged Communities).

up to 50%

**this is dependent on Con ED funding and can be subject to change

Non-public L2 and DCFC projects, such as workplaces with restricted access and private-ly-owned pay-to-park lots.

Public and non-public L2 and DCFC projects consisting only of proprietary plugs.

Public and non-public L2 and DCFC projects where proprietary plugs are not co-located with an equal number or greater number of standardized plugs of equal or greater charging capacity.

NEXT STEPS

1. Contact DVM Industries today to Setup a Site Audit.
2. Develop ROI Analysis & Payback including incentives.
3. Develop Action List with DVM team.
